

FAQs

WHAT DOES CSCI STAND FOR?

Computer Systems Center Incorporated

WHERE IS CSCI LOCATED?

CSCI's corporate headquarters is located in Springfield, Va. within the Washington D.C. metropolitan area. CSCI also has a presence in Patuxent River, Md.; Orlando, Fla.; Huntsville, Ala.; Fort Worth, Texas; Norfolk, Va.; Newport, R.I.; and Seattle, Wash.

WHO FOUNDED CSCI?

Founded in 1987, CSCI was co-founded by current CEO Linda LaRoche and current President, Joseph Link, to provide subject matter expertise and analysis, systems engineering and information technology (IT) development to the Department of Defense (DoD) and the federal sector.

WHAT IS CSCI'S PHILOSOPHY?

CSCI strives to provide objective and honest assessments to all clientele. As trusted partners with the government, CSCI's primary focus is to provide the highest quality of service to its clientele. As a cutting-edge technology solutions company, CSCI strives to sustain high-end leaders in the technology industry by minimizing management and encouraging an entrepreneurial spirit among its employees.

WHAT IS CSCI'S GREATEST ASSET?

CSCI is composed of a team of cross-functional professionals made up of subject matter experts and hybrid IT personnel possessing a broad palette of skills to meet today's toughest challenges. As valued and trusted partners, we provide hands-on, honest assessments of our clients' needs and requirements, and recommend optimum solutions.

HOW MANY EMPLOYEES DOES CSCI HAVE?

CSCI currently has 100 full-time employees and more than 25 consultants.

HOW LONG HAS CSCI BEEN IN BUSINESS?

CSCI was established in 1987 delivering relied-upon subject matter expertise and secure, integrated IT solutions to meet the needs of our clients.

WHAT DOES CSCI DO?

CSCI delivers innovative business, product and professional services solutions to the federal government and private industry, setting our clients apart from their peers providing them the security and data sharing capabilities their environment requires.

With a broad base of cleared, certified and experienced employees, CSCI offers a wide range of proven professional services that hinges on providing credible technical counsel to our clients through the application of operations analysis, modeling and simulation, architecture development, systems engineering, and IT development and design in the area of emerging technology.

Our integrated IT team has extensive experience in areas such as systems administration, application development and website design and implementation.

CSCI also delivers specialized services with substantial expertise in the areas of marketing, graphic design and public affairs.

WHO ARE YOUR MAIN CLIENTELE?

CSCI's client base includes the Department of Defense, encompassing the Offices of the Secretary of Defense (SECDEF), the Secretary of Navy (SECNAV), the Joint Chiefs of Staff (JCS), the Department of the Navy, the Department of the Air Force, and various research labs and government agencies, covering such areas as Theater Air and Missile Defense, Modeling and Simulation, Command and Control, Information Transfer, Combat Systems and Intelligence, Surveillance and Reconnaissance.

WHAT IS CSCI'S LATEST PRODUCT?

CSCI's latest product is the Cardinal Suite™, a set of collaborative, web-based solutions providing document management, knowledge collaboration, and personnel access management applications in a turn-key, secure PC-based computing environment (can be configured to meet Protection Level 2, Protection Level 3, and Protection Level 4 criteria).
