

## CSCI FAST FACTS

**OVERVIEW:** Computer Systems Center Incorporated (CSCI) delivers technical solutions, services and subject matter expertise to the public and private sectors. As a valued and trusted partner, we provide hands-on, honest assessments of our clients' needs and requirements, and recommend optimum solutions.

### PRODUCTS, SERVICES AND SOLUTIONS:

With a broad base of cleared, certified and experienced employees, CSCI offers a wide range of proven professional services that hinge on providing credible technical counsel to our clients through the application of operations analysis, modeling and simulation, architecture development, systems engineering, and IT development and design in the area of emerging technology.

CSCI's integrated IT team is a full-service professional services team and has extensive experience in areas such as systems administration, application development and website design and implementation.

CSCI also delivers specialized services with substantial expertise in graphic and website design.
