## **CSCI Breaks Into Hardware Development, Announces New Division**

**CSCI Technologies to concentrate on emerging technologies and hi-tech solutions**

**SPRINGFIELD, Va.**, October, 22, 2008 - Computer Systems Center Incorporated (CSCI) burst onto the Networking and Communication Systems scene recently by announcing its new division responsible for manufacturing high assurance and high performance networking hardware.

CSCI, primarily a systems integration and professional services company headquartered in Springfield, Va., engages in multiple IT contracts across the Department of Defense. The creation of the CSCI Technologies division is part of the evolving identity of CSCI and its employees.

"CSCI's first priority has always been to address the needs of our clients and assure them that we can be trusted to deliver the kinds of solutions that they not only need, but desire," said Linda LaRoche, CEO of CSCI. "Now, we not only continue to deliver the kind of secure, software solutions we always have, but are developing the platforms, that together will meet and exceed the expectations of the secure, high-performance computing industry."

CSCI Technologies delivers resilient and reliable services and applications to network infrastructures. The new division is made up of an industry-leading development team that has a proven track record delivering networking hardware and application solutions within various markets, including high-end data centers, financial institutions and research universities.
