CSCI CELEBRATES 21nd ANNIVERSARY AND REACHES A NEW MILESTONE

Springfield, Va. - August 7, 2008 - Today CSCI, a unique, defense industry-oriented software and systems development company based in Springfield, Va. celebrated its 21st Anniversary. CSCI reached another new milestone this year surpassing \$25 million in annual revenue.

CSCI first opened its doors for business in 1987 with just a handful of employees. Today CSCI employs over 160 Defense Systems Analysts, Operations Researchers, Engineering Technology Developers, Requirements Analysts, Systems Architects and Designers and Administrative staff. "It's an exciting time for us here at CSCI," said CSCI's CEO Linda LaRoche. "The outlook for our 22nd year is full of opportunities and we look forward to expanding our products and services while maintaining our professional reputation as Trusted Partners and Honest Brokers to all of our clients."

The Anniversary was marked with a celebration brunch at CSCI corporate headquarters in Springfield.

About CSCI

Computer Systems Center Incorporated (CSCI) is a unique, defense industry-oriented software and systems development company that offers operational analysis; modeling and simulation; secure data exchange capabilities; architecture development; and systems engineering and design. Founded in 1987, CSCI employs a range of highly skilled analysts, engineers and programmers, all constantly searching for current technologies and emerging trends that are best-suited to meet a client's rapidly changing needs. Headquartered in Springfield, Va., CSCI has a presence in Patuxent River, Md.; San Diego, Calif.; Orlando, Fla.; Huntsville, Ala.; Fort Worth, Texas; and Norfolk, Va., and employs more than 160 employees.
