Enterprise Systems Management

CSCI employs a group of highly skilled Enterprise Systems Management Engineers specializing in the deployment and support of the Computer Associates Unicenter Enterprise Management Suite within certified Department of Defense environments.

The unique skill set of the CSCI Enterprise Systems Management Group is supported by the various certifications held by the subject matter experts:

- Certified Unicenter Systems Engineer (CUSE)
- Microsoft Certified Systems Engineer (MCSE)
- Certified Information System Security Professionals (CISSP)
- Cisco Certified Network Associate (CCNA)

The CSCI Enterprise Systems Management Group has extensive experience deploying, supporting, and maintaining the below Enterprise Management Software within both Department of Defense and commercial sectors:

- Computer Associates Unicenter Network and Systems Management r11
- Computer Associates Unicenter Desktop and Systems Management r11
- Computer Associates Unicenter Service Desk r11
- Computer Associates E-Trust Audit
- Computer Associates E-Trust Anti-Virus
- Computer Associates BrightStor

All CSCI Enterprise Systems Management Group members go through an extensive screening process which includes a Department Of Defense Single Scope Background Investigation.
