

IT Services

Systems Integration

CSCI employs a group of individuals who possess a skill set and expertise within both the software and systems engineering disciplines to form a highly skilled group of hybrid engineers who provide all systems integration services for CSCI and our customers.

The CSCI Systems Integration Group has worked closely with both the commercial and Department of Defense sectors to help provide solutions in support of secure information sharing and collaboration. This group has teamed with the Department of Defense in the past to find and assist in the integration of innovative and disruptive technology.

The group of information technology professionals is 100% in compliance with Department of Defense directive 8570 and holds many industry-recognized certifications including:

- * Microsoft Certified Systems Engineer (MCSE)
- * Microsoft Certified Solutions Developer (MCSRD)
- * Microsoft Certified Database Administrator (MCDBA)
- * Cisco Certified Network Associate (CCNA)
- * Certified Information Systems Security Professional (CISSP)
- * VMware Certified Professional (VCP)
- * Red Hat Certified Engineer (RHCE)
- * Certified Unicenter Systems Engineer (CUSE)
- * Sun Certified Java Professional (SCJP)
- * Certified Information Security Auditor (CISA)
